

ATP BLU LINE

LDPE

ATP BLU LINE is a pipe in low density polyethylene (LDPE), first process recycled, it is black with a blue line and it is ultraviolet rays resistant (UV).

It is suitable for long-term irrigation systems, for open fields and greenhouses.

APPLICATION FIELDS

multi-season crops

greenhouse

open fields crops

floriculture and gardening

conveying of non-food fluids

TECHNICAL SPECIFICATIONS

- Four different diameters
- Operating pressure: PN6 / PN4
- Long lasting
- High reliability over time
- Produced in compliance with UNI 7990:2015
- 100% recyclable

RANGE

DIAMETER mm	THICKNESS mm	OPERATING PRESSURE mm	ROLL LENGHT (m) <i>standard</i>	ROLL LENGHT (m) <i>garden</i>
